## **DETAILED ACTION**

## Allowable Subject Matter

- 1. Claims 1 are 3-25 are allowed.
- 2. The following is an examiner's statement of reasons for allowance:
- 3. With regard to claims 1 and 3-11, the prior art of record, in the context of the limitations of the claims, does not disclose or make obvious the additional element of the laser diode array being configured to irradiate a plurality of irradiation zones such that each irradiation zone can be irradiated independently of the other irradiation zones.
- 4. With regard to claims 12-19, the prior art of record, in the context of the limitations of the claims, does not disclose or make obvious the additional element of a the inspection system further comprising a camera for receiving images of the fiber tape after the fiber tape has passed through the compaction region.
- 5. With regard to claims 20-25, the prior art of record, in the context of the limitations of the claims, does not disclose or make obvious the additional element of a temperature sensor capable of measuring the temperature of the fiber tape, wherein the temperature sensor is configured to measure the temperature of at least one sensing zone and the controller is capable of automatically controlling the laser diode array to independently irradiate a plurality of irradiation zones, wherein each of the sensing zones and the irradiation zones defines an area selected from the group consisting of an area on one of the fiber tapes and an area on the workpiece.
